MICHELANGELO'S SISTINE CHAPEL: THE EXHIBITION

A Life-Size, Up Close, Never Before Seen Perspective
Exhibition Overview

Michelangelo's Sistine Chapel: The Exhibition showcases the awe and wonder of one of the world's greatest artistic achievements while allowing visitors to experience this art, normally 60 feet away on Rome's Sistine Chapel ceiling, from an up-close, life-size, and never-before-seen perspective. Brought to life using a special photographic technique that reproduces the look and feel of the original paintings, visitors engage with the iconic artwork in ways otherwise impossible: seeing every detail, every brushstroke, and every color of the artist's 34 frescoes.

Each image is accompanied by informative signage and a free audio guide app for smart phones that provides in depth information about what the frescoes depict. Visitors can capture photos and set their own pace in this globally successful and inspiring exhibit. This exhibition is an innovative opportunity to encounter Michelangelo's timeless masterpiece.
